Professional Summary

MCA student with internship experience in Data Analytics and hands-on knowledge of Python, SQL, Microsoft Excel, and Power BI. Skilled in data cleaning, preprocessing, exploratory data analysis, data validation, and business problem solving. Familiar with Scikit-learn, Linear Regression, Logistic Regression, and fundamental machine learning workflows. Strong analytical and communication skills with an interest in AI/ML, predictive analytics, and building data-driven solutions for real-world business problems.

Education

SRM Institute of Science & Technology

2025 - 2027

MCA | CGPA: 8.24

AN College, Patna

2022 - 2025

BCA | 68.73%

Experience

Data Analyst Intern – Thiranex **View**

May 2026 – Jun 2026

- Cleaned, preprocessed, and validated datasets using SQL and Excel to ensure data quality.
- Analyzed business data using SQL to identify trends, patterns, and actionable insights.
- Built interactive Power BI dashboards and performed data verification to support business decision-making.

Projects

E-Commerce Sales Analytics **View**

Tech: Python | SQL | Power BI

- Built an end-to-end e-commerce analytics solution using Python, SQL, and Power BI to analyze sales performance, customer behavior, and product trends.
- Performed data cleaning, preprocessing, validation, and exploratory data analysis to improve data quality and identify meaningful business patterns.
- Used SQL queries, aggregations, joins, and analytical techniques to derive insights related to revenue, customers, products, and regional performance.
- Developed interactive Power BI dashboards to communicate KPIs, trends, and actionable insights for data-driven business decision-making.

Customer Churn Analysis & Prediction **View**

Tech: Python | SQL | Power BI | Machine Learning |Scikit-learn

- Analyzed 7,032 customer records to identify key churn drivers using Python, SQL, and Power BI.
- Built interactive dashboards tracking churn, retention, contracts, tenure, payment methods, and customer services.
- Developed Logistic Regression, Decision Tree, and Random Forest models for churn prediction and customer risk classification.

Technical Skills

SQL & Databases: Joins, Subqueries, CTEs, Window Functions, Aggregate Functions, PostgreSQL, MySQL
Programming: Python (Pandas, NumPy, Scikit-learn)
Machine Learning: Scikit-learn, Linear Regression, Logistic Regression, Data Preprocessing, Train-Test Split, Model Evaluation, Accuracy, Precision, Recall, F1-Score
Data Analysis Tools: Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP), Power BI (DAX, Data Modeling), Tableau, Apache Spark
Core Skills: Data Cleaning, Data Validation, Data Analysis, Data Annotation, Quality Assurance, Data Verification, Documentation
Process & Work Style: Quality Audits, Task Tracking, Accuracy & Detail-Oriented Execution
Tools & Platforms: Microsoft Office, Git, GitHub

Soft Skills

Attention to Detail | Quality Focus | Analytical Thinking | Problem Solving | Communication | Team Collaboration | Time Management

Certifications

- GenAI Powered Data Analytics Job Simulation - Forage **View**
- Microsoft Power BI - Skill Course **View**
- Microsoft Excel Beginner to Advanced - Skill Course **View**
- SQL - Skill Course **View**
- Data Analysis Using Python - Cognitive Class **View**
- Data Analyst Course - Simplilearn **View**

Languages

- Hindi – Native Proficiency
- English – Fluent (Reading & Writing), Professional Working Proficiency
